

## Anti-drug Campaign program

Drugs have penetrated and been an alarming issue in only the international borders but Bangladesh too. For this reason the youth of Bangladesh has fallen prey to a variety of drugs. Drug addiction has been becoming a rising threat to our not only our youth but the economy as well. Due to this, the youth who could sustain the livelihood of a family is becoming addicted to various substances and distancing themselves from responsibilities. The most dangerous effects of it are the mental, social, and physical toll that the youth of Bangladesh are facing. To help the youth affected by drugs, many families are facing a lot of financial troubles and also have to face social stigma.

To tackle this serious issue, PROSHIKA has implemented many anti-drug campaigns and programs. Not only that, PROSHIKA has also worked with the government to bring an end to issues relating to drug usage.

PROSHIKA, through this campaign, brings together people from various sectors of society, such as teachers, students, community people, and civil society, as well as people's representatives to speak about the issues and take actions accordingly.
