## **Employment and Income Generating (EIG) Activities**

For successful poverty reduction one of the prime needs is to assist the poor to generate

more income and create employment opportunities. This is done through providing financial service of credit and savings, management, skill development training, hands on extension service and marketing support. So far, 14 billion Taka has been provided as credit and million technical assistance creating 2.7

employment/self- employment opportunities and more than doubled their income in areas such as - Livestock, Fisheries, Sericulture, Apiculture and Irrigation and Tilling Technology Service.
